

# 2025 Christmas Letter

December, 2025

Merry Christmas!

Christmas Season 2025 finds me focused on Jesus and the gifts He gives: peace, forgiveness, and eternal life in heaven. The love of God is so great that Jesus humbled Himself by coming to earth through Mary's womb, and spending his first night in a manger. I need to remember these important things more often, rather than spend most of my prayer time on temporal challenges. The eternal is so much more important since it lasts so much longer.

Nita and I still live at The Vantage retirement community. At the weekly Bible Study, Steve finished leading a reading and discussion of the Gospels in chronological order. We plan to continue the chronological study by studying Acts in the coming year. Steve and Nita are retiring from administering the Sunday Night Movies shown at The Vantage. Steve also continues to be on the Food Committee. He finished his term as President of the Resident Council. Steve has also cut back to one bridge game most weeks.

At church, Steve continues to serve as an elder. We continue to be active in our home Bible study. What a great group! Steve also participates in a men's group. Steve volunteers at Fort Worth Pregnancy Center as part of a program to reach the fathers of the babies with information about the options and the wide range of support available.

Highlights for the year include: our 35th wedding anniversary (see photo), the 100th Birthday Party of a longtime friend of the Dossin family, and an overnight trip to see friends in Denison, TX.

The healthcare establishment seems to be taking a lot more of our time. Nothing immediately life threatening, but lots of appointments, delays, communication time, and restrictions on our lifestyles. Here's to improved health in 2026!

Things have not changed much for our family member Peggy. There was only one trip to the hospital, but she was sent home very quickly. The care provided by Arlington Heights Health and Rehabilitation Center continues to be excellent (especially for a Medicaid facility). The nurse over Peggy's unit is kind, helpful, and very patient with Peggy.

Please, dear friends, keep in touch.  
Happy and Blessed 2025!! Jesus is coming back soon!!

God bless you,  
Steve and Nita Dossin
